THE NAMES BOOK

DIRECTORY OF TRADE-NAMES AND BRANDS OF SHOES

CORRECTED LIST OF THE ADVERTISED TITLES USED BY U. S. SHOE MANUFACTURERS AND JOBBERS

The following alphabetical list of the names, registered or unregistered, given by United States shoe manufacturers to shoes produced by them, and by jobbers to special lines carried by them, is the most complete and accurate ever published in any form.

It was obtained from correspondence direct with manufacturers and jobbers, personal interviews and a study of copyright records. It has also been checked with greatest care against all partial lists issued up to this time, including those of the United Shoe Machinery Company. It therefore contains every available name or title entitled to good standing which has been published during the past five years.

In cases of duplication of titles, THE SHOEMAN disclaims all responsibility in respect to priority of use or present ownership of the titles in question.

Explanatory Marks

(J) indicates that the concern using the title is a jobber.

(+) indicates that the concern to which the title is credited is not now, so far as THE SHOEMAN could ascertain, operating as manufacturer or jobber under the firm name given in the list.

All concerns not designated by one or the other of the marks mentioned above are manufacturers operating under the firm names as given.
